CBSE Board (Class – XII), 79%

WORK EXPERIENCE

FRESHER

PROJECTS

HILL VIEW ESCAPE – HOTEL WEBSITE WITH BOOKING FEATURE **Github Live**
Designed and deployed a full-stack hotel booking website with real-time room reservation system. Implemented automated email notifications for instant booking confirmations, enhancing user experience and reducing manual communication effort. Built responsive frontend using React and scalable backend APIs using Node.js and MongoDB, ensuring fast performance and seamless data handling. Deployed the application on Vercel, Render, and Railway, achieving reliable uptime and smooth cross-platform accessibility.

MY PERSONAL PORTFOLIO WEBSITE **Github Live**
Designed and deployed a responsive personal portfolio website using React, showcasing projects and skills to visitors. Integrated an interactive Three.js animated background, improving user engagement and visual appeal. Developed a contact form using Node.js, Express, and MongoDB, enabling real-time message storage and communication. Optimized for all devices, ensuring smooth performance and consistent UI across mobile, tablet, and desktop screens.

FOOD RECIPE APP USING REACT NATIVE **Github Live**
Developed a React Native food recipe application with 7+ screens, delivering smooth navigation and intuitive user experience. Designed a clean and responsive UI, improving usability and ensuring seamless browsing of recipes. Focused on frontend performance optimization, achieving fast loading and efficient screen transitions. Built without backend integration, emphasizing strong UI/UX design and component-based architecture.

HERE ARE SOME OF MY SAMPLE DESIGNS CREATED USING ADOBE PHOTOSHOP **Link**
