PROJECTS

Hill View Escape – Hotel Booking Website (Link)

Developed and deployed a full-stack hotel booking website with live room reservation functionality. Integrated email automation to send instant booking confirmations to users. Built using React for the frontend, Node.js/MongoDB for backend APIs, and hosted on Vercel, Render & Railway for seamless deployment.

Personal Portfolio – Sachin Bhadoriya (Link)

Designed and deployed a personal portfolio website to showcase my projects, skills, and contact information. Built with React and Tailwind CSS, the site is fully responsive and optimized for all screen sizes. Hosted on Vercel with fast load times and smooth user experience.

Here are my some Sample designs using Adobe Photoshop (Link)
